one of the great joys of football fandom is that it provides the perfect opportunity to complain and make a point for example the referee was biased the overpaid strikers hopeless attendance poor the tea weak and the pies inedible that for many fans is a part of the attraction which football holds for them yet every so often a situation will arise at a club where passive complaint is simply not enough occasions where big business or individual greed set out to exploit those who walk through the turnstiles where freedoms are curtailed or where incompetent management is ruining a proud legacy against these indignations there comes a point when it is action and not words that are required rebellion is about those situations using anecdotes and interviews with the people at the heart of the movements as well as ordinary fans it examines many of the well known protests and looks at how and why certain groups of fans succeeded in their particular battle just as importantly it also looks at why other campaigns failed and how all too often those protests simply degenerated into ugly violence hooliganism and intimidation from the stratosphere of the premiership to the lowest reaches of the national league the author

examines the greatest outcries of british football and investigates the tense and at times violent atmosphere behind each one a gripping expose of organised dissent and disorganised ruckus

the price regulation conducted by economic regulators is a high stakes process with significant and lasting impacts on current and future service quality and the overall performance of the regulated sector this report tracks the efforts of the economic regulator of the scottish water sector to make the results of its price setting process work better for the customers of today and tomorrow addressing issues such as customer engagement sustainable asset management and climate change
